

TCM Forklift Part

TCM Forklift Part - Forklift trucks are an important player in the material handling field of each global trade. Transporting industrial goods occurs every day on our industrious world. Originally innovated as industrial vehicles during the 1930s in the United States, lift trucks gained popularity after WWII during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machines spread globally.

First founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first lift truck. Throughout the years, TCM lift trucks have become a worldwide leader in lift truck manufacturing and have built a solid reputation in the business. TCM began constructing forklift manufacturing locations outside of Japan during the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

With over 50 years of accumulated expertise and technology, TCM has been proudly manufacturing several models of industrial lift trucks, making their models recognizable all over the world. With an energetic and strong workers, TCM has been able to constantly work towards becoming a future leading material handling company.
