

Meritor Parts

Meritor Parts - Meritor is a leading global dealer which is proudly built on a one hundred year custom of service and quality. They concentrate on several modules, integrated systems and components to original machine manufacturers and the aftermarket for the transportation and industrial sectors.

Meritor values the wishes of their customers to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their worldwide operations. Meritor starts with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than 11,200 people, Meritor promotes collaboration and innovation amongst a team of knowledgeable experts.

By only employing future focused individuals, Meritor strongly thinks these top-caliber workers will be able to rapidly get used to to changing surroundings and exhibit the performance and commitment needed to reach results in the competitive materials handling business. The business empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor provides their workers various possibilities for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of drivelines, axles, suspension and braking systems used for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is likewise responsible for supporting the requirements of all their international engineering staff.

The Quality team at Meritor is a dynamic and customer-focused group that is devoted to ensuring optimum growth at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 countries.

They have their supplier network that is specially located to be able to support the growth of the business. Every regional team has internationally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in every part of the trade. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is even included transactional Green Belts who apply Six Sigma tools to business processes and apply lean methods.
